We are in the process of writing a review on the **Epson 7800**. When we received the Epson 7800 we began the process of writing instructions on how to setup and install the printer.

We took photographs of the printer as it arrived as well as when we unpackaged the printer. In the coming weeks the Epson 7800 will be fully installed and ready for testing.

We would like to thank **Parrot Digigraphic, LTD.** for providing us with the Epson 7800 for long term evaluation.

Please visit us at **www.wide-format-printers.net** for more information on a wide array of printers.
