

Canon iPF 5000 Evaluation Preview

Anthony Zinni

Evaluation Preview Introduction

Parrot Digigraphic sent a Canon iPF 5000 for evaluation. Since universities nowadays require sponsorship funding for research projects, and as no funding was available, we are nonetheless doing a general evaluation. Parrot Digigraphic, www.ParrotColor.com, is dedicated to giclee, fine art photography, proofing, and decor. These are interests shared with FLAAR.

As you can note in these photographs we already have an abundance of Epson Stylus Pro printers (all together we have received 25 wide format printers). There are about eight HP printers available as well. The advantage of this is that we have all the major brands so can intelligently compare and contrast the different printhead technologies and ink delivery systems.

The present PDF is the photo essay of the arrival. When the printer is installed the evaluation will continue and a final report will be issued.
