

RIP Software

ISA Exhibitor List 2012

Please Note

This report has not been licensed to any printer manufacturer, distributor, dealer, sales rep, RIP company, media or ink company to distribute. So if you obtained this from any company, you have a pirated copy.

Also, since this report is frequently updated, if you got your version from somewhere else, it may be an obsolete edition. FLAAR reports are being updated all year long, and our comment on that product may have been revised positively or negatively as we learned more about the product from end users.

To obtain a legitimate copy, which you know is the complete report with nothing erased or changed, and hence a report with all the original description of pros and cons, please obtain your original and full report straight from www.large-format-printers.org.

Your only assurance that you have a complete and authentic evaluation which describes all aspects of the product under consideration, benefits as well as deficiencies, is to obtain these reports directly from FLAAR, via www.wide-format-printers.NET.

Introduction

Once you have a serious wide-format printer, you may prefer to have an equally serious RIP software specific for the type of printer that you have.

The RIP software for water-based printers such as Canon, Epson, and HP may not be the same RIP software that could be most effective and productive on a flatbed or roll-to-roll wide-format printer.

FLAAR has been studying RIP software for about fifteen years. We have publications on RIP software especially between 1998 and 2006. Today in 2012 only about 10% of the original RIP software products are viable internationally. We prefer to focus on RIP software for wide-format inkjet printers and for RIP companies that interact with wide-format inkjet printer companies. This report covers those RIP software brands, which had a booth at ISA.

Caldera

Caldera booth at ISA 2012.

Ergosoft

Ergosoft Rip Solutions booth with personnel.

Onyx

Many people were interested in Onyx RIP.

Sai

Sai booth with staff at ISA 2012.
