Introduction

FLAAR has been evaluating media for over a decade. Now we are moving from evaluating giclee and fine art photo media into evaluating substrates for all grand format printers.

After being in various trade shows around the world, I have noticed the growing presence of companies engaged in the manufacture and distribution of media and substrates for digital printing.

When you go to a trade show it is tough to know which media or substrate companies to visit. How in the world can you tell the difference between the printable materials from one company compared with the other? To help printshop owners and managers recognize which media and substrate is of good quality, FLAAR is gradually getting to know the various manufacturers and distributors.

Please realize that until we visit a factory and get to know end-users who like the media, we do not give evaluations nor recommendations. We can only provide a list. Once we can visit a factory and get to know a specific brand, then we can provide review evaluations and recommendations.

This FLAAR Report on media is an inventory of media manufacturers and distributors that exhibited at ISA 2014 in Orlando.

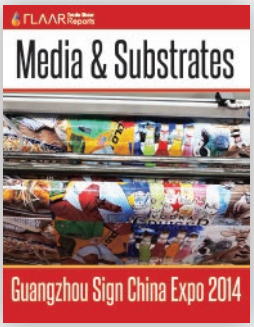
Complete FLAAR Reports



FLAAR Reports

media & substrates reports

www.wide-format-printers.net

If your company has your own Subscription then you would receive these FLAAR Reports more quickly.

Plus, if your company has a Subscription, you get additional details, in-person, at any and all printer expos where Dr Nicholas is attending.

FLAAR visits the booth of every Subscribing company and provides additional details, in-person.

To obtain a Subscription write to FrontDesk@FLAAR.org.

2014 Solvent Printers Reports

buy them at

www.wide-format-printers.net

PLEASE NOTE

This report has not been licensed to any printer manufacturer, distributor, dealer, sales rep, RIP Company, media or ink company to distribute. So if you obtained this from any company, you have a pirated copy.

Also, since this report is frequently updated, if you got your version from somewhere else, it may be an obsolete edition. FLAAR reports are being updated all year long, and our comment on that product may have been revised positively or negatively as we learned more about the product from end users.

To obtain a legitimate copy, which you know is the complete report with nothing erased or changed, and hence a report with all the original description of pros and cons, please obtain your original and full report straight from www.large-format-printers.org.

Your only assurance that you have a complete and authentic evaluation which describes all aspects of the product under consideration, benefits as well as deficiencies, is to obtain these reports directly from FLAAR, via www.wide-format-printers.net.
