FLAAR Reports JUNE 2008 JUNE 2008 Applications for Flatbed Inkjet Printers

Some Samples printed by the Legend 72HUV

Nicholas Hellmuth

FLAAR Reports

This hybrid printer from DEC is not being manufactured any more. The printer is still probably available, but is no longer an active model.

So we are moving the report to the Survey-Inquiry Form area. We apologize that the old links remain in Cyberspace. But at least we are doing the courtesy to indicate where the report has been moved to.

FLAAR is updating the Survey-Inquiry Form and adding more free PDFs that are available through this form.

So if you wish to acquire this report (at no cost) you can ask for this one plus many

http://www.wide-format-printers.net

Some Examples printed by the Legend 72HUV

Dr. Nicholas Hellmuth evaluating the printheads at VUTEk factory.

Dr. Nicholas Hellmuth at Durst factory.

Dr. Nicholas Hellmuth at Gandinnovations factory, taking notes on the framework of the Jeti 3150 UV printer.

Dr. Nicholas Hellmuth at Gerber factory.

Dr. Nicholas Hellmuth evaluating a sample printed on with the WP Digital Virtu RS35/48

These are some of the most Recent FLAAR Reports (2007-2009)
