

Seiko | Infotech ColorPainter

H-74s and H-104s

Seiko ColorPainter H-74s solvent printer at Seiko I Infotech booth, ISA Orlando 2010.

PLEASE NOTE

This report has not been licensed to any printer manufacturer, distributor, dealer, sales rep, RIP company, media or ink company to distribute. So if you obtained this from any company, you have a pirated copy.

Also, since this report is frequently updated, if you got your version from somewhere else, it may be an obsolete edition. FLAAR reports are being updated all year long, and our comment on that product may have been revised positively or negatively as we learned more about the product from end users.

To obtain a legitimate copy, which you know is the complete report with nothing erased or changed, and hence a report with all the original description of pros and cons, please obtain your original and full report straight from www.large-format-printers.org.

Your only assurance that you have a complete and authentic evaluation which describes all aspects of the product under consideration, benefits as well as deficiencies, is to obtain these reports directly from FLAAR, via www.wide-format-printers.NET.

Note for year 2011

The world is gradually asking more about printers with eco-friendly attributes. Although there is too much green-washing, and a lot of smoke-and-mirrors about green inks, the trend is growing.

It helps to be wary of excessive green claims, since inks that require high curing temperatures (latex ink and UV-cured inks) will be very expensive. Plus you have to pay cost to air-condition your offices to get rid of the heat of the curing heat.

The FLAAR Report on Seiko II ColorPainter V-64s and Seiko II ColorPainter H-104s and H74s printers is now over a year old, and we are moving it to the Survey-Inquiry form download system.

So if you wish any of the FLAAR Reports on Seiko ColorPainter printers, simply fill out our [Survey-Inquiry form](#), and the report will be sent to you.
