

Dedicated Flatbed UV-Cured Printer

GRAPO Manta

FLAAR is a research institute dedicated to the investigation of wide-format inkjet printers, wide-format cutters and routers, RIP software, scanners, inks, printheads, media and other related components.

This FLAAR Report you see here is the result of Professor Nicholas Hellmuth's quest for what UV-cured inkjet printer(s) or equipment are optimal for various kinds of signage and architectural decoration.

Our practical reports cost less than a liter of ink, yet will be invaluable to provide tips, help, information, and blunt facts.

This report has been moved to another area of our system (and updated). You can download this evaluation for FREE, just by filling out our survey form at www.wide-format-printers.net

Dr. Nicholas Hellmuth evaluating the printheads at VUTEk factory.

Dr. Nicholas Hellmuth at Durst factory.
